The Company

01

EN.PE – Energy & Environmental P.C. was founded in 2017 and specialises in consulting and study services in the energy and environmental sectors.

It provides integrated services across the full development cycle of a project — from preliminary investigation and study, through to obtaining the required approvals and ensuring compliance during construction and operation.

It is staffed by experienced chartered engineers and draws on an international network of collaborating engineers and scientists across all disciplines, while working closely with ADENS S.A. on the joint delivery of complex studies.

It is active in private and public projects throughout Greece — infrastructure, port & road works, tourism, the agricultural/livestock sector, urban development, energy and spatial planning.

Certified Quality Management System

ISO 9001:2015 +A1:2024 (ELOT EN ISO 9001) · Certificate No. 1710GR1298Q ·
Body: RIGCERT

Certification scope: preparation of Environmental Impact Assessments of technical projects, provision of engineering services & consultancy, management and coordination of construction projects.

Environmental Permitting

- ✓ Environmental Impact Assessments (EIA), category A1 & A2 projects
- ✓ Preliminary assessments (PPD) & Preliminary Determination of Requirements
- ✓ Amendments, renewals & compliance files for environmental terms (AEPO)

Special Environmental Studies

- ✓ Appropriate Ecological Assessments — Natura 2000 sites
- ✓ Strategic Environmental Assessments (SEA)
- ✓ Hydraulic studies, watercourse delineation & dewatering works

Energy & Sustainable Finance

- ✓ Sustainability studies for investment projects (RRF)
- ✓ “Do No Significant Harm” (DNSH) documentation
- ✓ Support for RES & energy infrastructure projects

Spatial & Urban Planning

- ✓ Technical support for Local & Special Urban Plans
- ✓ Assessment of Building Regulation (NOK) incentives
- ✓ Waste management & ecosystem protection

FIELDS OF EXPERTISE

Waste management

Sustainable industrial development

Major industrial accidents (Seveso)

Noise & air pollution

Ecosystem protection

Environmental project management

Construction project management & coordination

Technical support for public bodies

Selected Projects

03

Road Works & Infrastructure

Salamis Island Subsea Road Link

2022

Environmental support (EIA) for the Contracting Authority · Ministry of Infrastructure & Transport (D16)

Northern Road Axis of Crete (BOAK)

2020–

Appropriate Ecological Assessments & environmental support — Chania–Heraklion, Kissamos–Chania, Chania–Neapoli, Chersonisos–Neapoli sections

Old National Road Athens–Thebes

2025

Environmental terms (AEPO) amendment file, Mandra–Erythres section (West Attica)

Tourism

La Marquise Luxury Complex, Rhodes — A.E.T.E.K. S.A.

Environmental permitting of a 1,000-bed hotel complex

Agricultural & Livestock Sector

Elassona Farm S.A.

Sustainability study, DNSH documentation, Appropriate Ecological Assessment & EIA for a pig-farming unit (cat. A1) — RRF funding

Ports & Marine Environment

Port of Lavrio — Lavrio Port Authority S.A.

2021

Environmental study for the renewal of the port's environmental terms (AEPO)

Schistos Environmental Park

Environmental Impact Assessment

Selected Projects (continued)

03

Urban Development – Hellinikon Metropolitan Pole & Attica

Hellinikon

Compliance files for groundwater dewatering works

Saronida ESHASE

Strategic Environmental Assessment (SEA)

Psychiko Pistachio Grove – with ADENS S.A.

Assessment of Building Regulation (NOK) incentives (articles 15 & 25) against environmental criteria

Spatial Planning & Special Infrastructure

SUPCO – Sustainable Urban Planning Consultants

Environmental support for Local Urban Plans (Paros, Chersonisos) & Special Urban Plans (Ermionida, Poros)

EUSPA – GOVSATCOM

Environmental support for the installation of governmental satellite communications infrastructure (G-HUB)

Municipality of Monemvasia

2019

Study for the extension of a municipal property (donor-funded, EL.TECH. ANEMOS S.A.)

Energy, Minerals & Climate Change

PPC S.A. – South-Western Field (Kardia) & Southern Field Mines

Development revision — environmental permitting

ELPEDISON S.A. – 400 kV

2019

Transmission Line & Thisvi HV Substation

AEPO renewal file for the power transmission line (in collaboration with ADENS)

Hydrocarbon Exploration & Exploitation (offshore Crete)

Strategic Environmental Assessment (SEA)

Wind Farms – Laconia & Kynouria

Environmental permitting of RES stations

Regional Climate Change Adaptation Plans (RCCAP)

Attica & Crete

Team & Partnerships
